

(8:45 A.M. Announcement)

This is [**ANNOUNCER'S CALL SIGN**], there will be an informal simplex net this morning beginning at 9:00 A.M. for Lee County and surrounding area. This is not a directed net, so there will not be a Net Control station and no roll call. Shortly before 9:00 A.M., we will make a brief announcement on this repeater that the net is about to start. At 9:00 A.M. sharp those of us participating should QSY and begin to transmit our call sign on 146.420 MHz (which is our EMCOMM frequency) to see who we can communicate with by 2-meter simplex. Remember to turn your squelch completely off and your volume and power up. Make notes of your contacts for record purposes.

RESET THE REPEATER

After the net, please enter the calls you were able to hear into the **W4LEE Simplex Neighbors** application. A link to the application as well as a link to a quick start guide can be found on the Simplex Network page of the Club Website. Again, After the net, please enter the calls you were able to hear into the **W4LEE Simplex Neighbors** application.

[**ANNOUNCER'S CALL SIGN**] clear.
